P O L I C Y

ENERGY CONSERVATION

The Board embraces energy conservation and believes it to be our responsibility to ensure that every reasonable effort is made to conserve energy and natural resources while exercising sound financial management.

We recognize the importance of adopting an energy conservation policy to govern this program. We also affirm the implementation of this policy will be the joint responsibility of the board, administration, faculty, staff, students, support personnel, and Energy Education, Inc. Success is based on cooperation amid all groups.

To ensure the overall success of our behavior-based energy conservation program, the following areas will be emphasized:

1. A designated school district Manager will be accountable for energy conservation on school district property with Energy Education Specialist teams conducting energy audits and providing timely feedback
2. All personnel at all school district buildings are expected to make a positive contribution to maximize energy conservation and produce real energy savings.
3. Energy Education, Inc., will implement its energy conservation program primarily through an energy management team led by the Energy Education Specialist(s) in accordance with “Energy Guidelines” that will be adopted by the School Board of Trustees and administration and will define the “rules of engagement” for our energy program.
4. Accurate records of energy consumption and cost will be maintained by the Energy Education Specialist for each school district building to provide verifiable performance results on the goals and progress of the energy conservation program.

Further, to promote a safe, healthy learning environment and to complement the energy conservation program, each school building shall review and adhere to the preventive maintenance and monitoring plan administered by the school district physical plant for its facilities and systems, including HVAC, building envelope, and moisture management.

- A signed and dated copy of this policy and attached procedure(s) should be disseminated throughout the district and copies are to be placed in public areas to include, but not limited to, all bulletin boards, faculty lounges, campus newsletters, etc.

MOUNTAIN HOME, IDAHO**

RESOLUTION 13-03

WHEREAS The Board embraces energy conservation and believes it to be our responsibility to ensure that every reasonable effort is made to conserve energy and natural resources while exercising sound financial management;

WHEREAS The Board recognizes the importance of adopting an energy conservation policy to govern this program. We also direct the implementation of an Energy Conservation Policy that will be the

joint responsibility of the Board, administration, faculty, staff, students, support personnel, and Energy Education, Inc. Success is based on cooperation amid all groups;

WHEREAS The Board is responsible for governing and overseeing the operations and fiscal accountability of Mountain Home School District No. 193 (MHSD);

WHEREAS The Board embraces energy conservation and the desire for MHSD to become a nationwide institutional leader in energy conservation as part of our social responsibility to respect our natural resources;

WHEREAS The Board has engaged Energy Education, Inc., to use its expertise to develop and implement a comprehensive, behavior-based energy conservation program across the MHSD, and

THEREFORE, The Board directs the superintendent and/or his/her designees to develop and implement short and long-range strategies to maximize energy conservation.

BE IT FURTHER RESOLVED That the Board of Trustees directs that a signed and dated copy of the Energy Conservation Policy and Procedure(s) should be disseminated throughout the district and copies are to be placed in public areas to include, but not limited to, all bulletin boards, faculty lounges, school building newsletters, etc.
